In-class Activity 1: Editing a home page for a coffee shop

For this activity you will be given a basic html file that has minimal content in a very basic layout that describes a coffee shop. You are given instructions below to edit the html file to make changes to the format/layout, add some content, and to upload the file so that the public can see your coffee shop web page.

Part 1: Download lab1.html and complete the following modifications, without errors (For minimum credit of 75%).

1. Use a header tag for the Menu, Music, and Location titles on the page.
2. Write a couple of sentences under the Music heading, placed in a <p> tag.
3. Make the Copyright information italicized.
4. Add a menu item – choose your favorite coffee and add a row to the menu table.
5. Modify the sizes and prices for Café au Lait into an unordered list for each size:
   - Small $2.00
   - Medium $4.00
   - Large $6.00
6. Make sure to verify that you have no validation errors on the page. (After uploading the page on the server, browse it and then click on validate link on the bottom of the page to see whether your page has any error)

Part 2: Expand the page, for full credit(100%).

1. Add more content to the page such as:
   a. Add a row of links at the top to serve as a menu of pages.
   b. Find an image on the web, and add it to the page.

Part 3: Rename the .html file as <lastname1>-<lastname2>.html and upload it to your website under InclassActivities folder.

Part 4: Turn in your activity

1. Zip your .html file and a text file giving the address of your web sites.
2. Submit the .zip file to Aybuzem.
3. **SUBMISSIONS WITHOUT THE URLS WILL AUTOMATICALLY RECEIVE ZERO**.
